

Energy Innovation Asia is dedicated to delivering scientific, evidence-based solutions to the ever-increasing problems associated with delivering high Indoor Air Quality (IAQ)

Since the onset of COVID, UVC has become one of the most in-demand technologies around the world. The threat posed by airborne transmission through ventilation systems in buildings and enclosed spaces has been recognized as a major concern.

Almost overnight UVC systems have transformed from an HVAC efficiency option to a health and safety necessity. In fact, the WHO, EPA, CDC, and ASHRAE have identified UVC as a key recommended layer of protection. We are leaders in the field of Ultraviolet Germicidal Irradiation (UVGI) emitters for HVAC Systems. We provide a simple, cost-effective, all-in-one retrofittable solution for HVAC

Don't let your HVAC system be a breeding ground for mould & bacteria that can cause sickness, increased labor costs & energy inefficiency. GET IN TOUCH NOW!

No one does Clean Air Technology better than us

UVC FOR HVAC BENEFITS

- No VOCs
- No Ozone
- Limit Liability
- No Contracts
- No Chemicals
- Infection Mitigation
- Eliminate Coil Cleaning
- Environmentally Friendly
- Improve Indoor Air Quality
- Extend HVAC Equipment Life
- Water Conservation & Recycling
- Savings of 15 - 30% on energy bills
- Reduce HVAC System Maintenance

Live, work & breathe safer. Install our UVC in your existing AC system now

Our scientifically proven UVC Emitters (specifically designed for AC and HVAC) generate High Intensity Ultraviolet Light (UVC) at 253.7 nanometers.

The UVC destroys the DNA and RNA of micro-organisms and inactivates viral, bacterial, and mould /fungi species and is therefore effective against ALL types of viruses include all variants of COVID19, SARS, Influenza, Colds, Measles and German Measles and RSV.

Industries

Kill airborne viruses by fitting our UVC to your existing AC system.

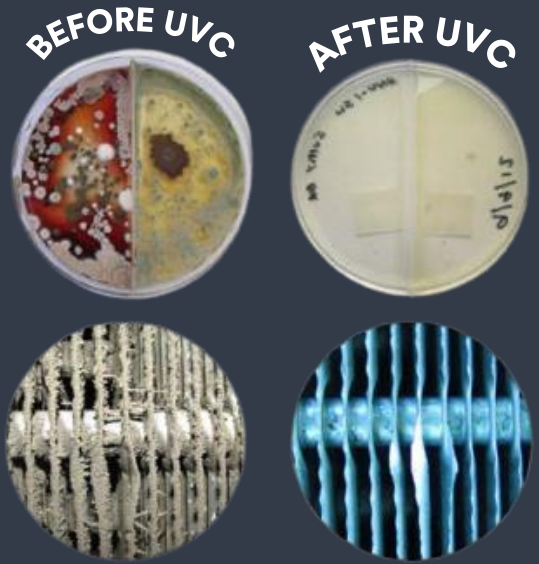

Not all UVC is the same

6X

MORE EFFECTIVE
THEN OUR COMPETITOR'S

As proven & tested by the Environmental Protection Agency and US Homeland Security.

Germicidal UVC: the Vaccine for your Air Conditioner
